

Operations Requirements and SLA

Document ID:	ORD-v4.0
Version:	4.0 Production
Status:	Approved for implementation
Effective date:	2026-05-24
Classification:	Internal - Build team

Document control

Version 4.0 Production | Effective 2026-05-24 | Supersedes all v3.x markdown sources. Cross-references use deliverables/ paths only.

1. Data retention (DRRD)

ID Requirement Retention period Verification

DRRD1 User preferences and settings >= 12 months Sample query on inactive user

DRRD2 Geolocation for orders/delivery 30 days Automated purge job

DRRD3 Delivery driver identification/contact 12 months Archive job

DRRD4 Order history (items, address, payment ref) >= 24 months Report + legal hold exception

DRRD5 Customer account after last activity >= 12 months then purge/anonymize FR3 deletion

DRRD6 Support interactions (chat, email) >= 5 days *Increase to 90 days recommended for

DRRD7 Payment transactions >= 5 years Finance audit export

2. Backup and recovery (DBRRD)

ID Requirement Acceptance criteria

DBRRD1 Three copies of important data (1 primary, 2 backups) Document backup locations;

Page 4/10 | Controlled copy

Titans InstaFood | ORD-v4.0 | PRODUCTION SPEC

3. Security (NFSR)

ID Requirement Acceptance criteria

NFSR1 Encrypt sensitive data (TLS + at rest) Scan shows TLS 1.2+; no clear-text PAN in DB

NFSR2 Activity logs (login, order changes) Same as NFR2

NFSR3 Username/password authentication Password hashing (bcrypt/Argon2); lockout policy

NFSR4 Role-based access: customer, driver, staff, admin Permission matrix tested per role

NFSR5 Input validation OWASP Top 10 mitigations on all public forms/APIs

Page 5/10 | Controlled copy

Titans InstaFood | ORD-v4.0 | PRODUCTION SPEC

4. System audit (SAR)

ID Requirement Acceptance criteria

SAR1 Password policy + MFA for privileged users Admin MFA enforced (NFR1)

SAR2 Login audit trail Cannot delete audit rows by standard users

SAR3 GDPR/HIPAA awareness Legal sign-off document; privacy policy published

Page 6/10 | Controlled copy

Titans InstaFood | ORD-v4.0 | PRODUCTION SPEC

5. Service level (SLA)

Metric Target

Availability 99.5% / month (NFR5)

Menu search p95 <= 3s (NFR18)

Order placement p95 <= 2s (NFR12)

Admin dashboard refresh <= 10s (NFR13)

Severity-1 incident response <= 4 business hours (*define in ops runbook*)

Severity-2 <= 1 business day

Page 7/10 | Controlled copy

Titans InstaFood | ORD-v4.0 | PRODUCTION SPEC

6. Disaster recovery (DR)

Item Requirement

DR plan document Annual review

Failover NFR21 - standby ≤ 60 min in drill

Geographic redundancy At least one off-site backup (DBRRD1)

Page 8/10 | Controlled copy

Titans InstaFood | ORD-v4.0 | PRODUCTION SPEC

7. Contingency plan

Scenario Response

Payment gateway outage Queue orders as unpaid; notify customer; manual capture *Should*

Primary DB failure Promote replica; RTO <= 4h

Region/cloud outage Failover per NFR21

Page 9/10 | Controlled copy
